The scholarly, peer-reviewed Journal on Education in Emergencies (JEiE) provides a unique forum bringing together research, practice, and policy to address the urgent need for rigorous research to strengthen the evidence base and improve learning in and across organizations, policy institutes, and academic institutions.

We invite manuscript submissions for JEiE's two sections:

**Theoretical or empirical RESEARCH ARTICLES** address key questions raised by emergency education response to a variety of crises and populations at any point along the continuum of prevention, preparedness, response, recovery, and development.

**FIELD NOTES**, typically by practitioners or practitioner-researcher teams, address innovative approaches to EiE, progress and challenges in designing, implementing, and evaluating initiatives, or observations and commentary on research work.

Coming Soon:
JEiE Volume 3 will be a special issue on Education and Peacebuilding, coming Spring/Summer 2017.
